## Original Kinesiology tape

**Item number:**  
**42884**

Consists of flexible cotton material, which can be stretched lengthwise by approx. 155 - 160 %. The tape, with the thermoplastic acrylic glue at the emplastic side, perfectly adjusts to the ambient temperature by stretching or contracting.

The tape is characterised by outstanding adhesive features, high wearing comfort and very good skin tolerance. It is permeable to air and can be easily removed from the skin after the therapy.

Item No.	Dimensions	Colour
42884004	5 m x 5 cm	beige
42884008	5 m x 5 cm	blue
42884012	5 m x 5 cm	yellow
42884016	5 m x 5 cm	green
42884020	5 m x 5 cm	purple
42884024	5 m x 5 cm	orange
42884028	5 m x 5 cm	pink
42884032	5 m x 5 cm	red
42884036	5 m x 5 cm	black
42884040	5 m x 5 cm	white

## Lattice tape

**Item number:**  
**42884**

In the course of the continued development of taping methods, lattice tapes (often called acupuncture plasters) were developed in accordance with traditional Chinese acupuncture or silky smooth Nasara lattice tapes are placed on pain, trigger or acupuncture points along the meridians.

### **Properties of Nasara lattice tapes:**

Made of high-quality polyester, polyurethane and a modern acrylate adhesive The tape is extremely skin-friendly and has the structure of a second skin. Similar to the muscle structure of the human body, it is in the form of a lattice. The silky-smooth lattice tape contains no medication or active ingredients and has a balancing effect on the body.

**Practical innovation:** with rear fold for easy detachment from the carrier film.

**Composition of Nasara® Lattice Tape:** 80% polyester, 15% polyurethane, 5% acrylic

Item No.	Packing	Dimensions	Version
42884114	180 pieces	approx. 27 x 22 mm	Typ A
42884118	120 pieces	approx. 36 x 28 mm	Typ B
42884122	40 pieces	approx. 52 x 44 mm	Typ C

## Tourmaline tape

**Item number:**  
**42884**

Our new tourmaline tape by Nasara® emits negatively charged ions when worn by tourmaline crystals.  
Tourmaline + water = negative ion

When wearing this tape at sports, the paper-thin layer of tourmaline crystals generates negative ions by contact with the salty sweat and emits them to the skin.  
A very high wearing comfort is guaranteed by the processing of high quality materials, even at great movement efforts. Due to the thin layer construction of the tape, a problem-free usage of the product beneath the clothing is made possible. The kinesiological tape is made of stretchable cotton cloth, stretchable without latex approx. 130 to 140 % longitudinal. The sticking side is layered with a thermoplastic acrylic glue. The tape is water-proof and air permeable.

Item No.	Dimensions	Colour
42884204	5 m x 5 cm	beige
42884208	5 m x 5 cm	blue
42884212	5 m x 5 cm	yellow
42884216	5 m x 5 cm	green
42884228	5 m x 5 cm	pink
42884232	5 m x 5 cm	red
42884236	5 m x 5 cm	black
42884240	5 m x 5 cm	white

## Precut application tape

**Item number:**  
**42884**

Without cutting, direct application, eases everyday practice. With the Nasara application pack, it's now possible for medical laypersons to quickly and easily help themselves with everyday issues.

The support material is made of cotton and fitted with a eudermic acrylate glue. The tapes are breathable, water-proof and tolerate even daily showers.

They can be worn for 3 to 5 days without confinement of mobility.

Note: With many traditional and alternative healing methods there is no scientific proof according to western standards yet. This is also true for this product.

Item No.	Packing/box	Version
42884304	16 sheets*	neck
42884308	16 sheets*	back
42884312	16 sheets*	shoulder
42884316	16 sheets*	knee

**\*Neck:**

8 sheets I-shape, pink, 5 x 20 cm  
8 sheets Y-shape, blue, 5 x 15 cm

**\*Back:**

8 sheets I-shape, pink, 5 x 20 cm  
8 sheets Y-shape, blue, 5 x 20 cm

**\*Shoulder:**

8 sheets I-shape, pink, 5 x 20 cm  
8 sheets Y-shape, blue, 5 x 20 cm

**\*Knee:**

8 sheets I-shape, pink, 5 x 20 cm

8 sheets Y-shape, blue, 5 x 25 cm
