

TABLE OF CONTENTS

<i>Blood Diluting Pipettes, Enzyme Test Pipettes and Capillary Pipettes</i>	2
---	---

Blood Diluting Pipettes, Enzyme Test Pipettes and Capillary Pipettes

Blood diluting pipettes according to Thoma, red, with division

Item number:
40355

for red corpuscles (erythrocytes) 1:101

White back, DIN 12750, soda lime glass, fused blue graduation

ASSISTENT-PERMANENT, 11 marks

Packing: 10 pieces/box

Item No.	Type
40355010	Standard type
40355710	CE

Blood diluting pipettes according to Thoma, white, with division

Item number:

40357

for white corpuscles (leucocytes) 1:11
White back, DIN 12750, soda lime glass,
fused blue graduation ASSISTENT-PERMANENT, 11 marks
Packing: 10 pieces/box

Item No.	Type
40357010	Standard type
40357710	CE

[» go to product \(website\)](#)

Blood diluting pipettes according to Thoma, white, without division

Item number:
40358

for white corpuscles (leucocytes) 1:11
White back, DIN 12750, soda lime glass, fused blue graduation
ASSISTENT-PERMANENT, 3 marks (0.5-1-11)
Packing: 10 pieces/box

Item No.	Type
40358710	CE

Blood diluting pipettes according to Malassez-Potain

Item number:
40359

fused blue graduation "ASSISTENT-PERMANENT"
Division at 1, 2, 3, 4 and 5

Item No.	for dilutions of	Mixture ratio	Type	for blood cells
40359001	1:100, 1:200, 1:300, 1:400, 1:500	1:101	Standard type	red
40359002	1:10, 1:20, 1:30, 1:40, 1:50	1:11	Standard type	white
40359701	1:100, 1:200, 1:300, 1:400, 1:500	1:101	CE type	red
40359702	1:10, 1:20, 1:30, 1:40, 1:50	1:11	CE type	white

40359001 and **40359002** for export outside EU only

Mouthpieces

Item number:
40360

Material: Polystyrene

Item No.	Material	Version
40360001	Polystyrene	red
40360002	Polystyrene	milk-white

[» go to product \(website\)](#)

Mouthpieces with silicone tubing

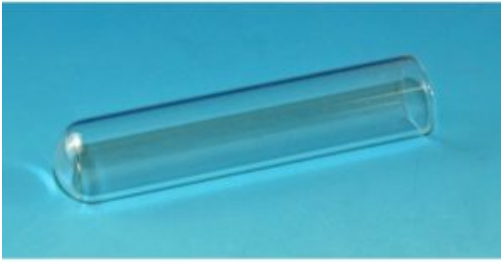

Item number:
40361

Length approx. 150 mm
Material: Polystyrene

Item No.	Material	Version
40361001	Polystyrene	red
40361002	Polystyrene	milk-white

**Pipetting by mouth is prohibited according to current regulations.
We reject any kind of product liability in case of using mouthpiece with rubber tubing.
We recommend our pipetting aids no. 40558010 and 40558001.**

Glass tubes for coagulation

Item number:
40514

with round bottom, without rim, clear glass

Item No.	Diameter	Length
40514020	approx. 12 mm	approx. 55 mm

» [go to product \(website\)](#)

Pipettes, clear glass, with rubber teat

Item number:
40514

long extended tip (approx. 30 mm), with rim, full length approx. 90 mm
Spare rubber teat: no. 42620010

Item No.	One mark each at
40514030	0.5 and 1.0 ml

[» go to product \(website\)](#)

Hematocrit tubes according to Wintrobe, CE

Item number:
40535

for determination of the volume of blood corpuscles, fused white graduation "ASSISTENT-PERMANENT", clear glass,
double series in different colours white/red

Item No.	Division
40535010	0 - 105 mm : 1 mm

[» go to product \(website\)](#)

Enzyme test pipettes, conformity certified

Item number:
40545

Clear glass, fire-polished, with elongated, strong tip, precision type, for partial delivery (not calibrated to tip), calibrated to deliver (Ex), short delivery time, zero point at top, main points, fused amber graduation ASSISTENT-PERMANENT, length approx. 35 cm, amber.

Available with individual certificate on request (against extra charge).

Packing: 10 pieces/box

Item No.	Division	Capacity	Colour code	Tolerance
40545718	0.01	0.5 ml	2 x yellow	5 µl
40545724	0.01	1 ml	yellow	7 µl
40545730	0.02	2 ml	black	10 µl
40545736	0.05	5 ml	red	30 µl
40545760	0.1	10 ml	orange	50 µl

40545718 in addition to DIN, not conformity certified, does not meet the requirements of the standard
